Sec 14

Sec 15

DCID 1/7

1. Reference was circulated to principal members at the 20 January SECOM meeting for subsequent comment. It seeks concurrence in waiving DCID 1/7 controls on the dissemination of foreign intelligence marked NOCONTRACT and PROPIN to the Institute for Defense Analyses (IDA) on grounds that IDA is an exclusive Department of Defense (DoD) contractor.

2. I have solicited the opinion of various concerned components of the Central Intelligence Agency. The consensus is that the status of the IDA as an exclusive DoD contractor is not relevant to the matter of a waiver on the use of DCID 1/7 caveats. The DIA is supported in its recommendation to disapprove a waiver regarding the use of ORCON. No information marked ORCON should be disseminated to IDA without the permission of the originator.

3. This Agency does not concur with the DIA proposal to waive the controls associated with the caveats NOCONTRACT and PROPIN. Originators apply these caveats with the expectation that they mean what they say in the Community. There are no qualifications attached to these caveats indicating that they do not mean what they say. Constraint on the handling of proprietary information, for example, is the prerogative of the originator. The caveat may be used as such to monitor as to constrain access. Under such circumstances, the originator would not want others making exceptions to the rules without his knowledge. I prefer to insist that rules be followed so that the Community continues to understand that DCID 1/7 caveats mean what they say all of the time.
